OOO SUNFINITY

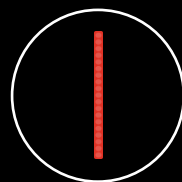

2010 UVA LEDs

A beautiful tan - just the way you like it.
Using 2010 blue UVA LEDs to ensure precisely dosed direct pigmentation for the face, décolleté, and body.

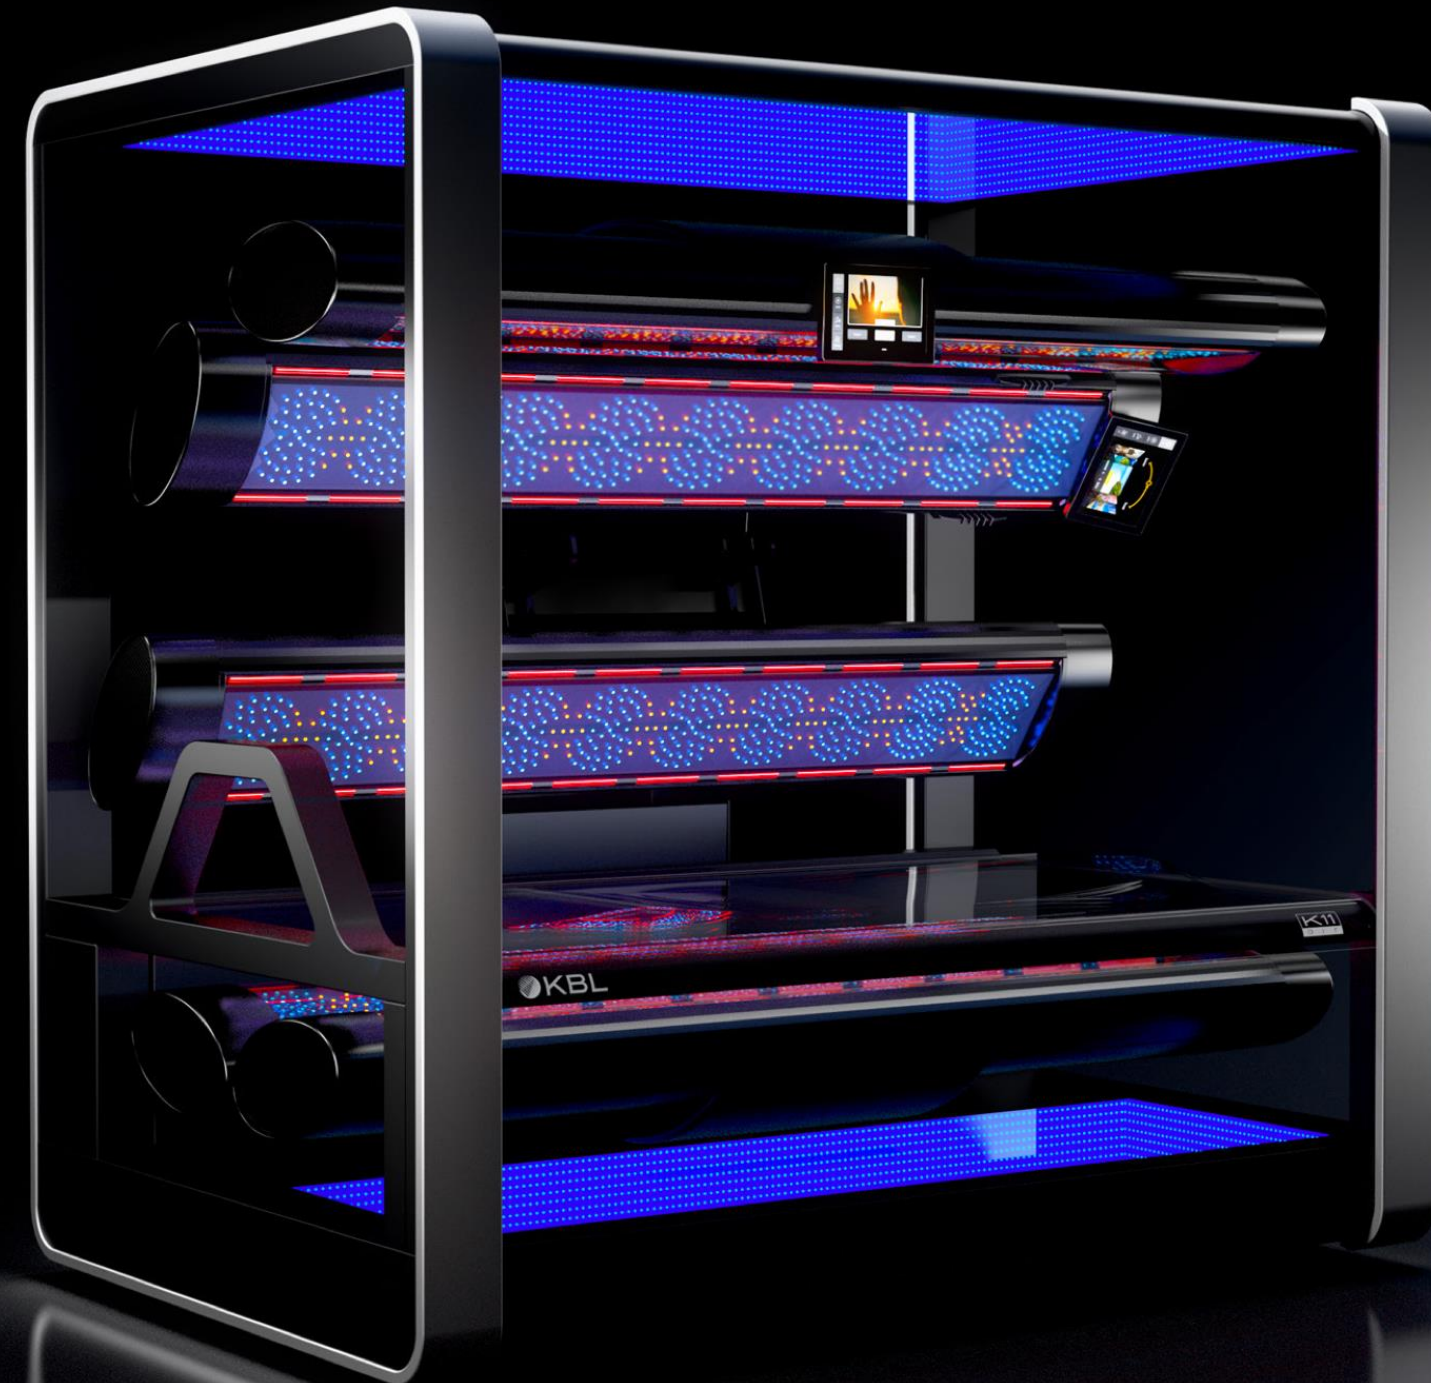

552 UVB LEDs

High-performance LEDs deliver the perfect amount of UVB and Vitamin D to ensure an exceptional tanning experience.

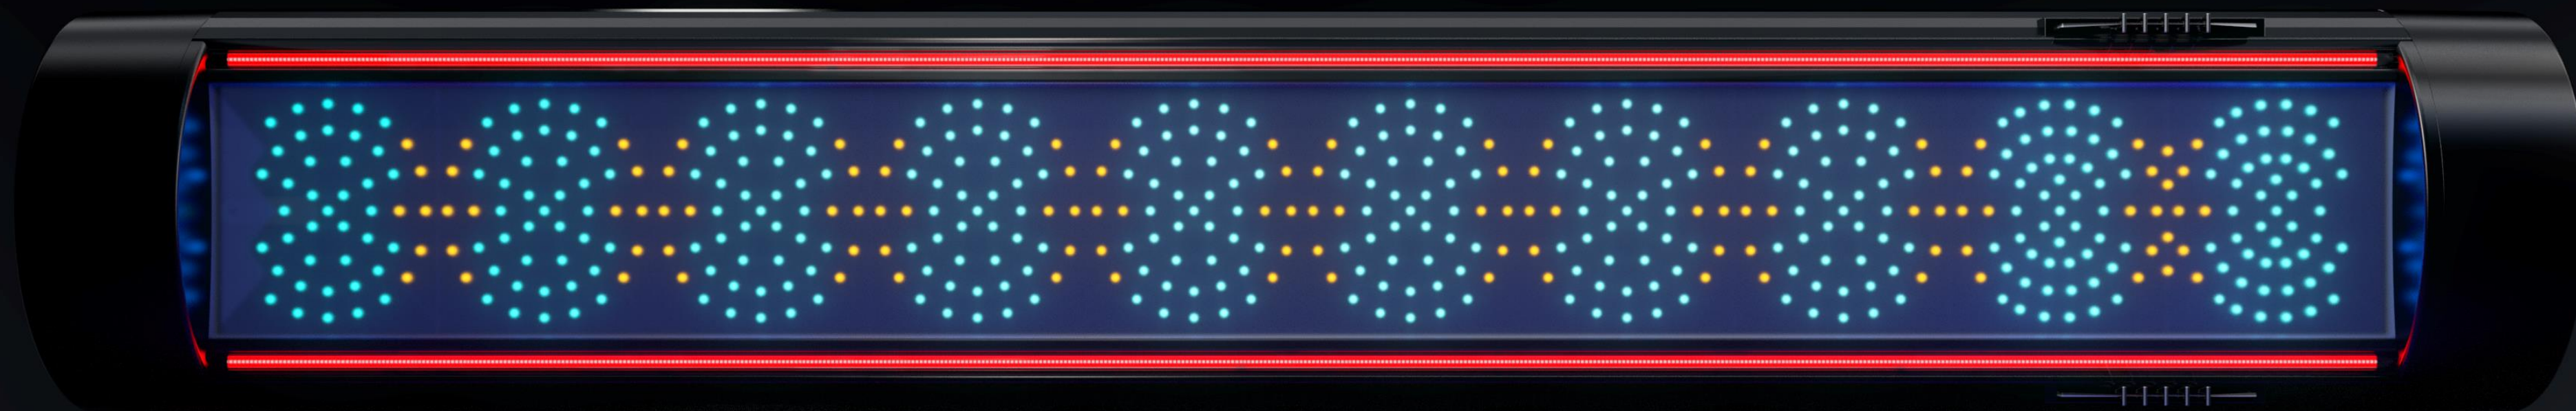

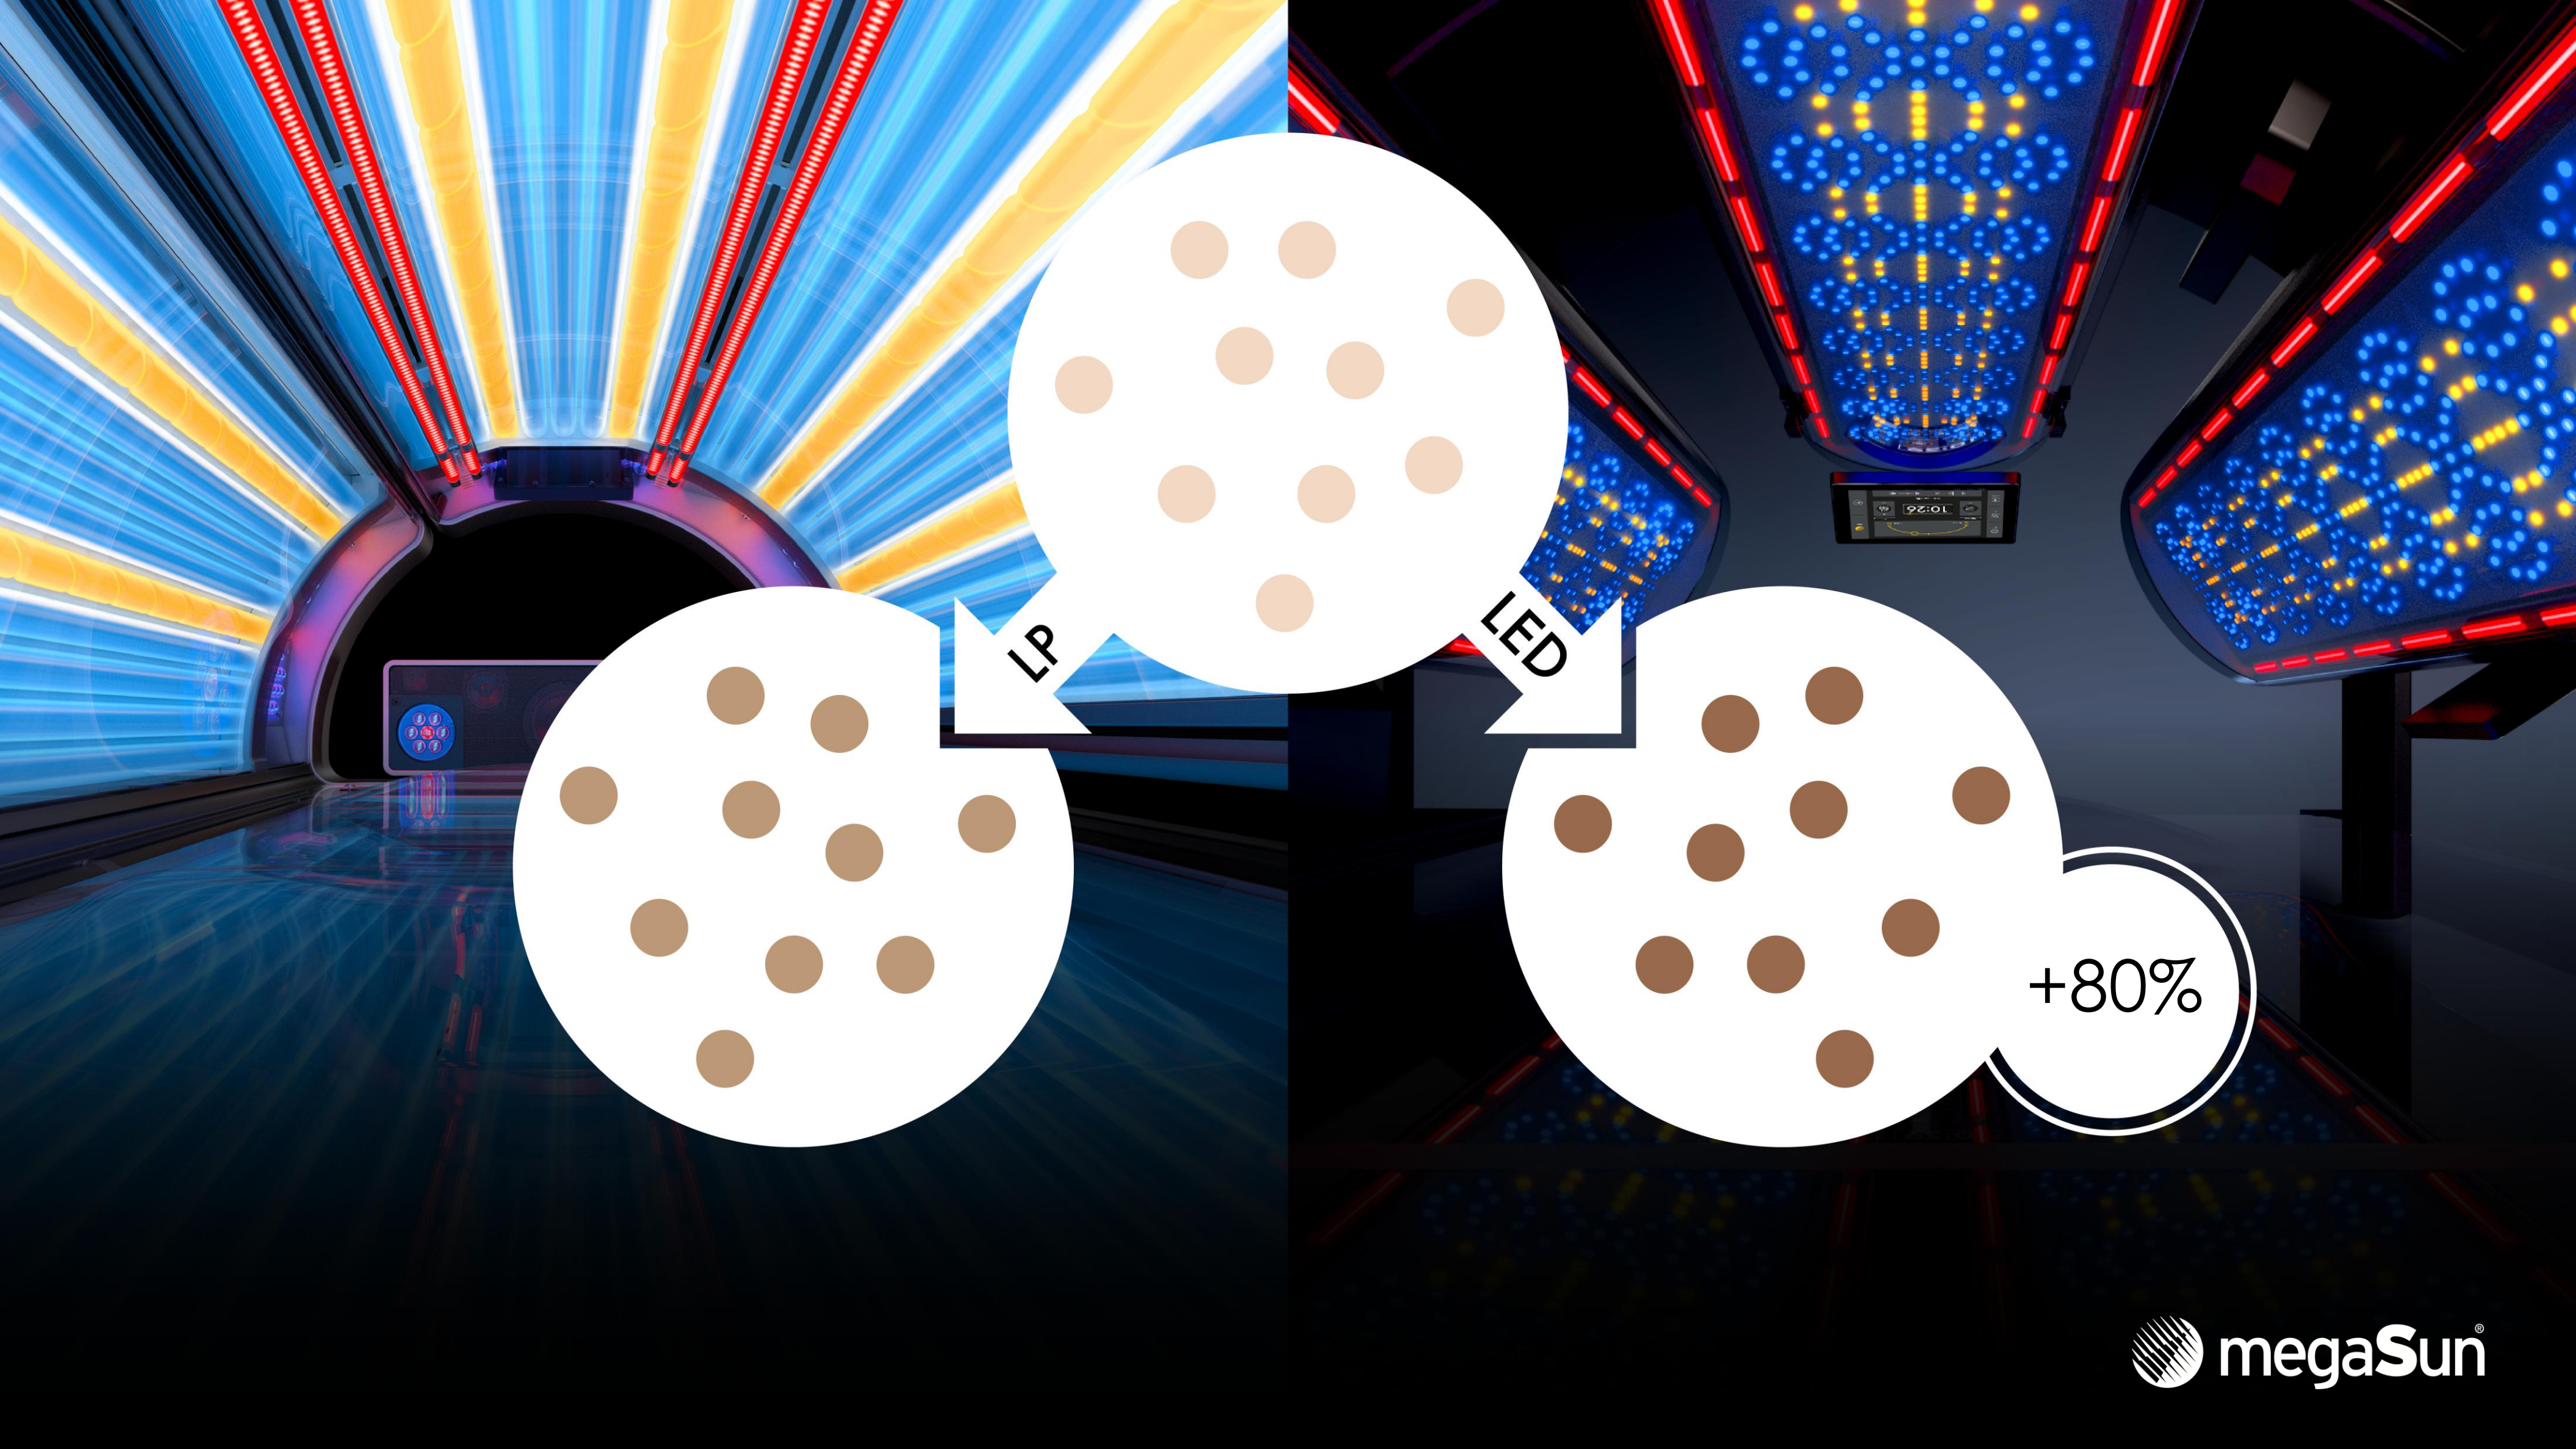

>4800 NANO BEAUTY LEDs

Nano Beauty LEDs provide gentle care and a natural tan for both the face and the entire body. They stimulate the natural production of collagen in the skin.

High-performance LEDs deliver the perfect amount of UVB and Vitamin D to ensure an exceptional tanning experience.

>4800 NANO BEAUTY LEDs

Nano Beauty LEDs provide gentle care and a natural tan for both the face and the entire body. They stimulate the natural production of collagen in the skin.

552 UV RED Light LEDs

Research suggests that wavelengths around 660-670 nm (red). This range is particularly effective for skin treatments

180 INFRARED LEDs

Optimal Wavelengths for Cellular Processes:

Research suggests that wavelengths around 830-850 nm (NIR) are particularly effective for cellular processes like respiration.
